NEMO DISPLAY PROTECTION

code: 414901

A soft thermoplastic technopolymer cover that perfectly molds to the Nemo Excel computer case, protects your display from scratches, without interfering with its readability.

All the great features of the original Nemo, now evolved with important upgrades: even tougher components, assembled by Swiss hi-tech production, for extreme durability. Upgraded mineral glass display, designed flat and protected, features increased digit contrast and readability. Newly shaped strap forms more comfortably to your wrist.
